**CABLE LUGS, CONNECTORS &
EARTHING PRODUCTS**

Company Profile

Introduction:

Incorporated in 1990, Billets Elektro Werke Pvt Ltd (BEWL) has been a leading force in the manufacturing of cable lugs, connectors, metal socket, split bolts and other electrical components, utilizing copper and aluminium as the key raw materials. Strategically located in Umbergaon, Gujarat, our state-of-the-art manufacturing facility boasts an installed capacity of 1000 metric tons of cable lugs & connectors. With a strong focus on quality and innovation, BEWL has emerged as a prominent player in the global market, with exports accounting for over 65% of our operating income, particularly to Australia, Europe, USA, South East Asia, and the Middle East.

Our Journey:

Billets Elektro Werke Pvt Ltd embarked on its journey of engineering excellence and innovation from a humble beginning as a small shop manufacturing cycle rickshaws in Nagpur. Founded by Mr. Govindbhai Patel, our company initially diversified into the production of switchgear products and star delta starters for the electrical industry. Leveraging their academic engineering background, Mr. Patel and his son, Mr. Ashok Patel, pioneered the use of cold-crimping technology for cable terminations, setting new standards in the industry.

Our expansion into domestic markets in 2006 further solidified our industry presence.

Global Reach and Recognition:

Driven by a commitment to excellence, Billets Elektro Werke Pvt Ltd has expanded its footprint beyond the domestic market, establishing a strong presence in key international markets including Germany, Spain, Australia, New Zealand, UK, South Africa, Malaysia, Hong Kong, Vietnam, and the Middle East. Our expertise in design, manufacturing, and quality control has earned us the trust and loyalty of clients worldwide, with whom we share enduring business relationships spanning decades.

Innovation in Automating Cable Lugs Production:

As part of our commitment to innovation and efficiency, Billets Elektro Werke Pvt Ltd has invested significantly in automating our cable lugs production process. By leveraging cutting-edge automation technologies, we have streamlined production workflows, reduced lead times, and enhanced product consistency and quality. This innovative approach not only allows us to meet the growing demand for cable lugs with greater efficiency but also enables us to maintain our position as a market leader in the electrical manufacturing industry.

Diversification and Innovation:

As our company continues to grow and diversify in the electrical components market, we are proud to introduce our latest range of copper tubes, rods, sections, and strips. With plans to cater to the high-volume copper semis market, we remain committed to driving innovation and delivering high-quality solutions that meet the evolving needs of our customers.

Product Range:

Billets Elektro Werke Pvt Ltd is a leading manufacturer, exporter, and supplier of a wide range of high-quality electrical components including cable terminals, Tubular Lugs, Metal Socket, Sheet Metal Lugs, Connectors, Copper Semis, PG Clamp, C-Connector, and more. Our products are trusted by customers across India, USA, Saudi Arabia, the Middle East, Australia, Malaysia, Myanmar, Spain, Germany, Israel, South Africa, and beyond.

Bimetallic lugs

Bimetallic lugs

Bimetallic pin

Cable lugs & connectors

Aluminium extruded lugs

Copper cable lugs with bell mouth

Copper circuit breaker lugs

Copper long palm long barrel lugs

Copper standard cable lugs with inspection hole

Connectors

Aluminium sleeve overhead line
line non tension sleeve

Aluminium sleeve overhead line
Aluminium full tension sleeve

Aluminium link barrier type

Aluminium house service connectors

Aluminium mechanical connectors

URD bolted aluminium link

Terminals

Insulated terminals

Pin connectors uninsulated

Large diameter rings on a small conductor

Grounding & earthing products

Busbar

C connectors multifit connectors

C connectors conventional connectors

PG clamps

C connectors tap off c connectors

Lay-in lugs

Split bolts

Manufacturing Unit

CNC Vertical Machining Centre- HAAS

80,000 sq.ft. Shop Floor

Upcasting Furnace

High Speed Presses
